

**5.4.2 Alumni Contribution during the last five years (INR in Lakhs):**

The College has an Unregistered Alumni Association that serves as an informal network for former students. Since it is unregistered, there are no official financial contributions or memberships. Consequently, no audited financial statements are available or required. The association focuses on fostering connections among alumni, organizing reunions, and supporting current students through mentorship and networking opportunities. Activities and events are coordinated voluntarily, relying on the goodwill and participation of its members. Despite its informal status, the association plays a significant role in maintaining a sense of community and continuity among graduates.
